

Collaborative Partnerships with Families

1st February 2019

This is one relationship that has lasted over 10 Years between our Ennam Family and KPR-Woolloowin.

Respectful partnerships and relationships are built over years; however, this is one relationship that KPR hopes will last a life time. Even though I have been part of this relationship for only the last two years I hope they keep sharing their journey with us forever. I'm the type of Centre Manager that doesn't believe in making daily achievements about myself, I want them to be about the children and what LEAD Woolloowin achieve as a team for the service. But this week, this family have just blown me away. It's not about the gift but the touching words written.

I receive quite a few every week, and my team finally have made me want to share them with management as well. So, this year you may wish to add some of these in our reviews on our social media or website.

If you have kind words that you would like to say about myself or the team at LEAD Woolloowin, don't be shy, either send an email or a more personal touch, feel free to write a letter.

Kindest Regards,
Antonia Kalatzis
LEAD Childcare Woolloowin Centre Manager
